

NOORCHAIN — Pilot School Charter

Educational Pilot Program (Pre-Mainnet Phase 8.A)

Version 1.1

Last updated: 2025-XX-XX

1. Purpose of This Charter

This document defines the framework of an **educational pilot program** between **NOORCHAIN** and the pilot school **École Graine de Vie (Switzerland)**.

The purpose of this pilot is to:

- experiment with **non-financial Proof of Signal Social (PoSS)** mechanisms,
- explore educational, social, and civic use cases of blockchain technology,
- test ethical digital certification concepts in a **controlled, pre-mainnet environment**.

This pilot is **experimental, non-commercial, and non-financial**.

2. Scope of the Pilot

The pilot program is limited to:

- educational demonstrations,
- simulated or symbolic PoSS signals,
- internal learning activities (students, educators, community),
- testnet or off-chain representations where applicable.

The pilot **does not involve**:

- real-money transactions,
- financial incentives,
- token speculation,
- custody of assets,
- public market exposure.

3. Nature of PoSS Signals (Educational Context)

Within this pilot, PoSS signals may represent:

- participation in educational activities,

- contribution to community or ecological initiatives,
- validated learning milestones,
- ethical or social actions aligned with the school's values.

All signals are:

- symbolic in nature,
- non-financial,
- non-transferable outside the pilot context,
- validated manually or semi-manually.

4. Roles & Responsibilities

4.1 École Graine de Vie

- Participates voluntarily in the pilot.
- Defines educational activities and values.
- Does **not** handle tokens, wallets, or technical infrastructure.
- Acts as an **educational partner**, not as a validator or financial actor.

4.2 NOORCHAIN

- Provides technical guidance and conceptual tools.
- Ensures Legal Light CH compliance.
- Does not collect personal data.
- Does not promote financial usage.
- Retains full responsibility for the protocol and infrastructure.

5. Legal & Compliance Framework

This pilot operates under the **Swiss Legal Light CH framework**:

- No custody of user assets
- No promised returns
- No financial product
- No investment solicitation
- No fiat conversion
- No regulated payment activity

NOORCHAIN remains a **utility-focused, non-profit-oriented protocol** during this phase.

6. Data Protection & Privacy

- No personal student data is recorded on-chain.
- No private identifiers are stored.
- Any educational data remains internal to the school.
- The pilot complies with Swiss and EU data protection principles.

7. Duration & Termination

- This pilot is temporary and exploratory.
- Either party may terminate participation at any time.
- Termination has no financial, legal, or operational consequence.

8. Non-Exclusivity & Independence

This charter:

- does not create exclusivity,
- does not imply endorsement,
- does not establish a legal partnership or joint venture,
- does not create financial obligations.

9. Public Communication

Any public reference to this pilot:

- must remain factual and non-promotional,
- must avoid investment or financial language,
- may highlight educational and social innovation only.

10. Acknowledgement

By participating in this pilot, both parties acknowledge:

- the experimental nature of the initiative,

- the educational purpose,
- the absence of financial intent.
